General Usage

There seems to be a bug in the Average (AVG) and On-Base Pct. (OBP) report calculations as they do not account for Sacrafice Flys (Sac Fly). Is there a way to fix this?

Yes, this was an oversight and , yes, this can be fixed. All reports and fields can be edited by selecting a report and selecting the Reports -> Edit Reports menu item (or by double-clicking on a report or field).

To fix this particular problem, do the following steps:

1. Make sure you are using version 3.3 or higher of Statbook
2. Select the report which has the AVG or OBP field
3. Double-click this field (not the report)
4. With the field selected (e.g. AVG), from the 'Favorites' list, select the appropriate item (e.g. Average).
5. Repeat steps 2-4 for each field (and report) which needs updating
